

# RUBBERSELECT.

## Diamond design

## Productcode – DM

| Properties          |                         |
|---------------------|-------------------------|
| Quality             | NR/SBR                  |
| Colour              | Black                   |
| Temperature range   | -20° to +70°C           |
| Specific gravity    | 1,5 grs/cm <sup>3</sup> |
| Hardness            | 70° Shore A +/-5        |
| Tensile strength    | 3 MPa                   |
| Elongation at break | 200%                    |

| Chemical Resistance |                 |
|---------------------|-----------------|
| Oil                 | not recommended |
| Fuel                | not recommended |
| Acidity             | not recommended |
| Alkaline            | moderate        |
| Aging               | moderate        |
